

OSAMA ALI NAJI

Saudi Arabia | +966569414493 | osama12145@gmail.com | linkedin.com/in/osama--naji | Osama1.site

PROFILE

AI Engineer with First-Class Honors in Computer Science and hands-on experience building and deploying production AI systems. Specialize in ML & DL, Agentic AI, RAG pipelines, LLM integration, and Computer Vision — delivering end-to-end solutions using LangChain, LangGraph, n8n, PyTorch. Building scalable multi-agent systems and AI products that drive operational efficiency and business growth.

EDUCATION

Taibah University <i>Bachelor of Science in Computer Science.</i> — GPA: 4.95/5.00 - First Class Honors	Jan 2020 – May 2024
KAUST (King Abdullah University of Science and Technology) <i>Specialization — Artificial Intelligence</i>	Oct 2024 – Feb 2025
Apple Developer Academy TUWAIQ <i>Education Scholarship — iOS Dev, Swift, UI/UX</i>	Oct 2025 – Nov 2025

WORK EXPERIENCE

AI Engineer Tytan KSA Full-time On-site - Independently led the AI division — designed, built, and deployed ML/DL models for delivery performance optimization with no team or senior guidance. developed Power BI dashboards for real-time KPI visibility into delivery bottlenecks. - Built AI automation agents to streamline internal workflows and reduce manual operations.	Aug 2025 – Mar 2026
AI, Backend & Database Intern SIT – IT Solutions Internship Built AI-integrated applications, designed relational databases, and developed RESTful APIs with FastAPI.	Mar 2025 – Jun 2025
Taibah Valley Internship Artificial Intelligence Intern Developed high-accuracy Arabic sentiment analysis model using Python, NLTK, and scikit-learn; conducted full data acquisition, cleaning, preprocessing.	Jul 2023 – Aug 2023

PROJECTS

Hotel Customer Service Agent — WhatsApp AI Bot <i>LangGraph · LangChain · RAG · EvolutionAPI · OpenAI API · LINK</i> End-to-end Agentic AI system handling hotel inquiries (rooms, pricing, bookings, FAQs, escalation) via WhatsApp in Arabic & English; RAG pipeline connected to hotel knowledge base with full workflow orchestration.
Company Document Chatbot — RAG-Powered AI <i>LangChain · FastAPI · Qdrant · OCR · LINK</i> Multilingual RAG chatbot (Arabic & English) over company PDFs/DOCX/TXT; Streamlit UI + FastAPI REST API; fully containerized with Docker Compose for one-command deployment.
Arabic Handwritten Character Recognition — Multi-Stage Deep Learning Pipeline <i>PyTorch · U-Net · EfficientNet-B1 · CNN · Triplet Loss · Grad-CAM · LINK</i> 98.72% test accuracy & 0.987 macro F1 on 16,800 images (28 classes); image retrieval system with 98.33% Top-1 accuracy; Triplet Loss metric learning + t-SNE validation + Grad-CAM explainability.
PhishWarden — Phishing Detection System (Graduation Project) <i>Python · Flask · ML · NLP · HTML/CSS/JS LINK</i> ML-based system detecting phishing emails and URLs via NLP feature extraction, full-stack Flask implementation — key contributor to A+ grade.

SKILLS

ML / DL Engineering	TensorFlow · scikit-learn · NLP · PyTorch · Hugging Face · Deep Learning · Python · Git
	SQL · Flask · FastAPI · REST APIs · Linux · Power BI · Cloud Deployment AWS · Docker
Agentic AI	LangGraph · LangChain · CrewAI · AutoGen · OpenWebUI · n8n (workflows & custom nodes)
LLMs & RAG	RAG Pipelines · Prompt Engineering · OpenAI API · Ollama · ChromaDB · Embeddings
Soft Skills	Self-directed · Problem Solving · Leadership · Communication · Adaptability

CERTIFICATES & TRAINING COURSES

Apple Dev Academy (Apple, Nov 2025) · ML Specialization (Stanford, Dec 2025) · Deep Learning Spec. (DeepLearning.AI, May 2025) · IBM ML Professional Cert. (IBM, May 2025) · Associate AI Engineer (DataCamp, Jul 2025) · AI Program Intro & Advanced (KAUST, Feb 2025) · McKinsey Forward Program (Dec 2024) · Python 3 Programming (U. of Michigan, Nov 2024) · AI Track (FutureX, Mar 2023)
